UK 11+/13+ Common Entrance Examination Preparation

Alpha Common Entrance Group Studies prepare students to have a confident approach to the examinations. Entrance to UK schools remains competitive with schools expecting a high level of attainment in all subject areas for overseas students. Our group studies are designed to optimise the group experiences in this regard.

The classes are scheduled in accordance with the student’s targeted year of entry. All students will be asked to sit an assessment test to identify their capacity to join the group. Students will be invited to join a group if their level is commensurate with other students so that they are able to progress at a similar pace. Students will be required to commit to regular attendance and respond to weekly home assignments in order to continue their studies with the group.

There are ongoing classes throughout the year. Please contact our administration to discuss suitable times and days.

**Subjects:** English, Mathematics, Science & Humanities

**Course Structure:** 1 or 1.5 hour sessions

**Course Fee:** $640/hr, $960/1.5hr
